CENTERS OF EXCELLENCE

The term “Center of Excellence” in medicine is used to describe a dedicated focus on a specific diagnosis to provide comprehensive treatment options and excellent clinical outcomes. This includes specialized training, equipment and clinical pathways, which are essential to provide the best patient care. The Centers of Excellence include BPH and Bladder Health.

Benign Prostatic Hyperplasia

Benign Prostatic Hyperplasia (BPH) refers to an increase in the size of the prostate. This enlargement may cause urinary symptoms like blockage of urine flow and increased frequency of urination.

Bladder Health

An estimated 15% of women have overactive bladder. For some women, changes in temperature and the sound of running water can trigger an urgent need to urinate.
