Centers of Excellence:

Sexual Health & Family Planning

Did you know we specialize in vasectomies, vasectomy reversal, erectile dysfunction/impotence, infertility, male infertility and sexually transmitted diseases?

Male Birth Control

Perhaps you and your partner are finished having children. Or you just know you don't want children in the future and want to make sure no unplanned pregnancies happen. If this is the case, you might be looking for permanent methods of birth control.

Male Infertility

Infertility is the inability to conceive after at least one year of unprotected intercourse. Since most people are able to conceive within this time, physicians recommend that couples unable to do so be assessed for fertility problems.
